# The Foundation of AI Innovation - Silicon First

- **The Overlooked Foundation**
  - AI discourse focuses on software/algorithms, but semiconductors are essential pillars
- **Korea-US Leadership**
  - Combining Korea's semiconductor excellence with Silicon Valley's AI ecosystem
- **Critical Technologies**
  - GPUs, HBM, NPUs, DPUs, custom accelerators
- **Geopolitical Context**
  - US-China competition, CHIPS Act, export controls, supply chain dynamics
- **Our Mission**
  - *Deep understanding of AI semiconductor ecosystem - essential for sustainable AI*

## Make Tonight Count!

- *Engage Deeply* Ask questions, challenge assumptions, share insights
- *Network Actively* Introduce yourself and your company during dinner
- *Think Long-term* This is the beginning of a strategic partnership
- *Stay Connected* Join K-PAI membership for ongoing collaboration
- *Shape the Future* - Your participation tonight influences our H1 2026 forum direction!
